The battle record component of the record features:

- over 60 aussie vocal samples including oz crims, cops, freaks and dope heads.
- dope battle loops on both sides including an extended **Funky Worm** for scratching over.
- compilation of expletives and samples of abuse to toys for those heated battles.

TURNTABLE SETUP FOR THE MASTER.

There are two vocal tracks either side.

A1. HOW FAT IS SHE - the funniest Hip Hop track ever released in Australia and banned on JJJ after the switchboard was lit up with complaints after a few minutes on the Hip Hop show. The track is 6 minutes of disses to the big boned.... *she walked past the tv and I missed 3 commercials.... or she was born on the 1st, 2nd and 3rd of July.*

A2. EQUIPMENT- an ode to making do with shitty equipment and a fortnightly dole cheque.

B1. S TO THE S - features Kate Iles on chorus and vocals. Check this track is a wicked Trip Hop.

B2. UNORTHODOX - An aussie hard rock classic by the Angels is looped for an aussie hip hop classic. Chorus uses the classic mullet anthem..**no way, get fucked fuck off...!!!**

- Our last comp received favourable reviews in Australian Rolling Stone, Hip Hop Connection in the UK, Juice magazine in Australia etc. **The Little Aussie Battler** will have a larger promotional push including ads in Stealth and Large magazine. Posters and stickers have also been made up for a street campaign. [Australian Orders](#)
